

XINE : Activity

- Project aim:
 - A media playing lib with a very simple API
 - xine is well designed and modular with plugins.
 - xine supports a huge range of multimedia formats, with more being added all the time.

XINE : Challenges

- Software Patents
- Lack of developers
- The demuxer problem.

XINE : Dependencies

- Libraries in use:
 - Many different ones (more than 51).
 -
- Projects dependent upon:
 - ffmpeg (for codecs)
 - libdvdnav/libdvdread

XINE : Next Steps

- Fix bugs, add new codecs, features.
- There are no specific goals, the project just evolves over time.
