

24 July 2025

IETF 123

draft-ietf-mlcodec-opus-extension

Draft Status

- -04 published
 - Contains proposed change from Bangkok for separators with a frame increment of zero
 - Contains suggestion from Mo to clarify that frame separators with a non-zero increment are not repeated (because the “current frame” starts after that)
 - Additional liberal editing for clarity and precision

Last Call?

- Are we ready?

Opus Extension Format
